DR. MOHD SHAHROL BIN ABD. WAHIL

Ministry of Health Malaysia

Dr. Mohd Shahrol Abd. Wahil is a Public Health Physician at the Ministry of Health (MOH) Malaysia and a Health Impact Assessment Subject Specialist registered under the Department of Environment Malaysia. This year marks his 14th year working with MOH Malaysia. He is directly involved in the management of flood disasters, heatwaves, transboundary haze, and chemical incidents. He conducts the program related to climate change and planetary health, such as healthy settings, resilient health-care facilities, and low-carbon healthcare facilities.

Co-Organizer

Hokkaido University Center for Environmental and Health Sciences
Hokkaido University Faculty of Health Sciences
